Office Action Summary	Application No. 10/755,447	Applicant(s) SHINOHARA ET AL.	
	Examiner Robert Sellers	Art Unit 1712	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

Art Unit: 1712

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 2, 5 and 8, drawn to an bisphenol epoxy resin of general formula (2), classified in 528, subclass 87.
 - II. Claims 3, 4, 6, 7, 9 and 10, drawn to a composition comprising the bishenol epoxy resin of general formula (2) and a curing agent, classified in class 528, subclass 119.

The inventions are distinct from each other because of the following reasons:

Inventions I and II are related as mutually exclusive species in an intermediate-final product relationship. Distinctness is proven for claims in this relationship if the intermediate product is useful to make other than the final product (MPEP § 806.04(b), 3rd paragraph), and the species are patentably distinct (MPEP § 806.04(h)). In the instant case, the intermediate product is deemed to be useful as a component in an adhesive and the inventions are deemed patentably distinct since there is nothing on this record to show them to be obvious variants.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions anticipated by the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1712

2. Claims 3, 4, 6, 7, 9 and 10 are generic to a plurality of disclosed patentably distinct species comprising:

a) The epoxy resins of general formula (2) wherein R_1 to R_6 are identified such as the solid 3,3',5,5'-tetramethyl-4,4'-dihydroxydiphenylmethane-advanced liquid epoxy resin of Example 2 on page 11 wherein the liquid epoxy resin is the diglycidyl ether of 3,3',5,5'-tetramethyl-4,4'-dihydroxydiphenylmethane of Reference Example 1 on page 10 (i.e. R_1 to R_4 is methyl, and R_5 and R_6 is hydrogen).

b) The curing agents such as the dicyandiamide used in Example 7 on page 14 of the specification.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species ***within each of items a) and b) hereinabove***, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1712

A telephone call was made to Robert L. Haines on January 5, 2006 to request an oral election to the above restriction and election of species requirements, but did not result in an election being made. The reply to this requirement to be complete must include an election of the invention and species to be examined even though the requirement is traversed (37 CFR 1.143).

Upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Sellers whose telephone number is (571) 272-1093. The examiner can normally be reached on Monday to Friday from 9:30 to 6:00. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
